## HAD TERRIBLE COUGH IN BED 3 YEARS

In 3 weeks, she was out on the street again, feeling fine.

"In 1916, I had a gripe, followed by pneumonia which kept me in bed for three months. I coughed constantly from morning till night, and then would wake up in the night and cough. I lost sleep and my appetite was very poor. I doctored with a specialist for over a year, and had several other doctors, but got worse instead of better. Last winter I was laid up with chills and fever and so weak I could not sit up in bed for minutes without fainting.

"In February, 1919, I started on Milks Emulsion. I was then in bed, but in 3 weeks I was able to be up and on the streets. Just thing of it! For 3 years I have been a physical wreck, in bed most of the time, and Milks Emulsion had brought me out in wonderful shape. My friends all tell me how well I'm looking, for they didn't expect me to be living today."

—Miss M. Russell, 1004 1/2 Avenue St. Alphonse, La.

## FACULTY MEN ARE POVERTY VICTIMS

Professors at Cincinnati College in Financial Distress. Survey Shows.

CINCINNATI, Ohio, April 15.—An assistant professor of the University of Cincinnati who looks his own supper in order to take the place of a servant and cut down living expenses, a migratory professor of the same University who has been forced to move almost monthly every time his house rent was raised, and a professor who has been "skidding" financially for the past several years because his income could not meet the outgo, are revealed by a survey of University of Cincinnati faculty budgets just completed here. Results of the million-dollar endowment fund campaign headquarters.

Our professors and scientists are reluctant to discuss their extreme poverty, because they do not want to place their appeal for help pay on the basis of charity," said Dr. Charles W. Dabney, president of the university, who made the survey.

"They realize, as everyone must, that the type of work they do deserves decent financial reward, altogether, irrespective of their personal needs. But the need does exist, much as they dislike to admit it."

One assistant professor, for instance, it was shown by the survey, has a salary of \$1,200 a year. To obtain respectable clothing and to buy the technical books he requires, it is his custom to act as a house chambermaid.

Demott, an American citizen of Pittsburgh, N. J., has examined Demott's papers and is sending them to the foreign office for further perusal.

## HUSBAND'S LOVE GROWS 'HIGH CLASS,' WIFE SUES

Baltimore Surgeon's Spouse Says He Has Changed From American Attitude.

NEW YORK, April 15.—That his personal views on matrimony and fidelity had developed into closer resemblance to the French and upper-class English ideas than to the hypocritical American attitude" was the statement of Dr. Henry O. Reik, prominent eye and ear specialist of Baltimore, in a letter to his wife, which the latter offered in evidence yesterday in her divorce suit here on the ground of abandonment.

In this epistle Dr. Reik, who was a lieutenant colonel in the United States Medical Corps during the war, said that because of this change of view both would be happier separated. The letter was dated March 28, 1919, and read in part:

"In this reconstruction period, persons as well as nations, should put aside shame and hereafter I shall make my life free and honest. In pro-

fessional and business life, I have always pursued that policy. First let me say that, in the affair that was directly responsible for our separation, I told you all the truth. Nothing has been hidden about that.

"Names are not a matter of consequence. From past experience, I cannot promise to live any differently in the future. Furthermore, my personal views regarding matrimony and fidelity have developed in recent years into closer resemblance to the French and upper-class English idea than to the hypocritical American attitude."

Dr. Reik added that he always would hold his wife in the highest esteem, "far too good for me." Mrs. Reik was awarded \$30 a week alimony and \$300 counsel fees pending trial of her action.

Dr. Reik is widely known as the author of several works on surgery.
